10	6/7/22		Review: Babylon - The New Creation			Hot Potatoes	

## Notes

The course will run for three terms of 10 weeks each.

### Morning Expositions

These will be short expositions on scripture presented by students on rota throughout the year. We will work through a NT epistle with a small number of verses per session.

### Year 1

#### Bible Overview

This will be based on Christopher Ash's *Remaking A Broken World* and focus on the themes of gathering and scattering throughout scripture.

Each session will look at scripture and will draw on the theological themes developed by Ash. Students will be encouraged to purchase the book and prep work will be provided in advance to allow for discussion in the sessions.

Most sessions will be delivered by WH, who is developing the material.

### Year 2

#### Systematic Theology

We will use *Know The Truth* by Bruce Milne as the foundational text for the Systematic Theology Course. Students will be given video resources in advance for preparation.

Hot Potato sessions will be a chance to discuss and explore thorny theological issues chosen by students in advance.

Gobbets groups will see Year 2 students working on short bible passages with the aim of working out a theme, aim and key points they would seek to teach in a range of possible contexts. Students will be assigned passages in advance and will receive feedback in their group.

#### Bible Handling Skills

This section will focus on bible handling teaching the Word. There will be a systematic survey of biblical genres and how to approach teaching them effectively. Interspersed will be a number of standalone sessions focusing on how to teach in different contexts.

Year 2 students will join the Year 1 students for the Bible Handling Skills session (where the same topics will be covered with different passages from last year).

These sessions will be largely taught by visiting speakers from the region.
